### DETAILED ACTION

#### Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, drawn to an online points system, classified in class 705, subclass 14.
  - II. Claims 9-23, drawn to a method for encrypting codes, classified in class 380, subclass 28.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the code used in the points system does not need to be encrypted in the manner of Group II. The subcombination has separate utility such as the code being encrypted could be used in systems not pertaining to online points.
- 3. During a telephone conversation with Michael Bosworth on May 8, 2003 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-8.

  Affirmation of this election must be made by applicant in replying to this Office action. Claims 9-

23 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

# Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 6. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by <u>Kamille</u> (5,996,997).
  - Claim 1: Kamille discloses a system for an awards points account, comprising:
- a. A main server for providing a user with an interface to submit a code obtained offline and associated with a number of points (col 3, lines 18-35 and col 12, lines 31-41); and

Art Unit: 3622

b. A code server for maintaining valid codes and verifying the validity of the code submitted by the user (col 3, lines 18-35 and col 12, lines 31-41).

Claim 2: Kamille discloses a system for an awards points account as in Claim 1 above,

and further discloses maintaining a user account containing the points balance for the user (col 3,

lines 18-35 and col 12, lines 31-41).

Claims 3 and 4: Kamille discloses a system for an awards points account as in Claim 2

above, and further discloses updating the user account after the user submits a valid code (col 3,

lines 18-35 and col 12, lines 31-41).

Claims 5-8: Kamille discloses a system for an awards points account as in Claim 2 above,

and further discloses that the code may contain any number of letters, numbers, and/or characters

(col 13, lines 18-27).

## Conclusion
